

## Breeze Hill Neighbourhood Health Centre

A new level 1 healthcare facility in Walton became operational in March 2008 after construction and development by the Liverpool & Sefton Health Partnership achieved practical completion in February. The building represents £4.8 million of investment in healthcare infrastructure. The Health Centre services include 2 GP practices (Walton Medical Centre & Grey Rd Surgery), Podiatry, Nurse Led Treatment Rooms, Diagnostic Testing, Continence, Orthoptist clinic, Family Planning, Child Health, and a Retail Pharmacy. Breeze Hill is situated adjacent to Queens Drive making it both accessible and a prominent landmark in the local community. It is a bright & welcoming building with first class modern facilities.

### Clients Comments

The furniture for the building was procured through Diamond Business Interiors and plays a key role in the holistic design approach to health & well being. The PCT project team worked closely with Diamond staff to finalise room layouts and waiting area design and found that the company provide a professional service and invaluable advice in the design process. The delivery & installation process was organised, considerate & swift and provided a good level of customer satisfaction.
